## **NEWS RELEASE**

### **L-3 Klein Introduces Newly Developed Model 3900 Side Scan Sonar for Search & Recovery**

SALEM, NEW HAMPSHIRE, September 17, 2007— L-3 Communications Klein Associates, Inc. consistently provides the most competitive products which meets customer needs and exceeds expectations. L-3 Klein has recently completed the design and development of a Model 3900 Side Scan Sonar. The system is extremely high resolution digital sonar for use in Search and Recovery missions which require a portable side scan system. The model has a dual frequency capability with 445 kHz offering excellent range and resolution and 900 kHz which offers higher resolution of identified targets.

The system is competitively priced and configured to operate by one man from a small boat in shallow water. The standard system configuration comes complete with a splash proof Transceiver Processing Unit (TPU), custom configured laptop and 50m of lightweight tow cable. The Model 3900 Towfish electronics are housed in stainless steel body with a phosphorescent finish for easy underwater identification.

According to John Cotumaccio, President and General Manager of L-3 Klein, "Our plan is to continuously develop new systems which will launch Klein into new highly competitive market areas. Our new Systems are cost effective and provide the same proven technology as the Models 3000 and 5000 Side Scan Sonar Systems. L-3 Klein has several new products in the pipeline as well as standard product and pre-planned improvements which, will continue to keep us ahead of the competition. Our goal is to continue to develop state-of-the-art underwater products that our customers require".

We are now taking orders for production deliveries of our new dual frequency, Model 3900 Search & Recovery System which will be available at an extremely competitive price.

####

Headquartered in Salem, New Hampshire, L-3 Communications Klein Associates, Inc. is a leading sensor technology company which manufactures and designs high-resolution sonar systems, marine navigation systems, and radar based security and surveillance systems. Klein's customers include commercial, government and military organizations, shipping and offshore oil companies and related support contractors, maritime facilities, academic institutions and underwater vehicle manufacturers.
